

FM2000 Fund Manager Data Sheet

Overview

FM2000 Fund Manager is used to manage funds and monitor projects.

The system is an n-tier, thin-client, Internet/Intranet application that runs on a browser, web server and database. It has been developed for use with Microsoft technologies.

Depending upon version, FM2000 Fund Manager may be implemented on a single machine (Personal) or for all other versions, two-layer, three-layer or n-layer hardware configurations.

For a single-site installation, a two-layer hardware architecture is usually adequate, whilst on a large multi-site implementation, n-layer architectures utilising clustering capabilities may be appropriate.

System Requirements

- ▶ FM2000 Fund Manager Personal – single-user fund management and project monitoring system

Desktop

Supported client operating systems for FM2000 Fund Manager Personal are Microsoft Windows 2000 Professional and Microsoft Windows XP Professional.

Minimum Hardware

- Pentium III processor
- RAM (OS dependant)
 - Windows 2000: 64 MB
 - Windows XP: 128 MB
- VGA monitor and video adapter
- Microsoft Mouse or compatible pointing device
- Available hard disk space: 200 MB

Recommended Hardware

- Pentium 4 processor
- RAM 128 MB (or higher)
- VGA or higher-resolution monitor and video adapter
- Microsoft Mouse or compatible pointing device
- Available hard disk space: 200 MB

Software

- Microsoft Internet Explorer 5 or higher
- Office Web Components version 9 (ships with Office 2000) or version 10 (ships with Office XP)
- Microsoft Internet Information Services 5 (ships with OS)
- Microsoft SQL Server 2000 Desktop Engine (MSDE 2000) (distributed with FM2000)

Server

FM2000 Fund Manager Personal is installed onto a single desktop machine that can be used as a server to support up to four users, subject to acquiring additional user licences.

- ▶ FM2000 Fund Manager – single site fund management and project monitoring system
- ▶ FM2000 Fund Manager Enterprise – multi-site fund management and project monitoring system

Desktop

Supported client operating systems for FM2000 Fund Manager and FM2000 Fund Manager Enterprise are Microsoft Windows 98, Windows Me, Windows NT 4.0 with Service pack 6a and higher, Windows 2000 or Windows XP.

Minimum Hardware

- Pentium III processor
- 64 MB RAM
- VGA monitor and video adapter

- Microsoft Mouse or compatible pointing device

Recommended Hardware

- Pentium 4 processor
- 128 MB (or higher)
- VGA or higher-resolution monitor and video adapter
- Microsoft Mouse or compatible pointing device

Software

- Internet Explorer 5 or higher
- Office Web Components version 9 (ships with Office 2000) or version 10 (ships with Office XP)

Server

Supported server operating systems for FM2000 Fund Manager and FM2000 Fund Manager Enterprise are Microsoft NT 4.0 Server with Service pack 6a and higher, Windows 2000 Server, Windows 2000 Advanced Server and Windows Server 2003 (all versions).

Minimum Hardware

- Pentium III processor
- 256 MB RAM
- VGA monitor and video adapter

- Available hard disk space: 1.0 GB or more

Recommended Hardware

- Pentium 4 processor
- 512 MB RAM (or higher)
- VGA or higher-resolution monitor and video adapter
- Available hard disk space: 2.0 GB or more

Software

- Microsoft Internet Information Server version 4 or Microsoft Internet Information Services version 5
- Active Server Pages (ASP) version 2.0 or higher
- Microsoft Scripting Edition 3.0 or higher
- Microsoft Data Access Components (MDAC) 2.5 or higher
- Microsoft ActiveX Data Objects (ADODB) 2.5 or higher

Database

Supported server operating systems for the FM2000 Fund Manager or FM2000 Fund Manager Enterprise database are Microsoft NT 4.0 Server with Service pack 6a and higher, Windows 2000 Server, Windows 2000 Advanced Server and Windows Server 2003 (all versions).

Minimum Hardware

- Pentium III processor
- 256 MB RAM
- VGA monitor and video adapter

- Available hard disk space: 1.0 GB or more

Recommended Hardware

- Pentium 4 processor
- 512 MB RAM (or higher)
- VGA or higher-resolution monitor and video adapter

- Available hard disk space: 5.0 GB or more

Software

FM2000 Fund Manager and FM2000 Fund Manager Enterprise:

- Microsoft SQL Server 7.0 or higher, or equivalent DBMS, e.g. Oracle 8i ¹

¹ Requires appropriate OLE DB Data Provider.
