

FM2000 Fund Manager Pricing

Introduction

FM2000 Fund Manager is available in three versions:

- ▶ **FM2000 Fund Manager Personal.** Designed for the smaller organisation, where a single officer or small team manages and monitor projects. This product uses the Microsoft Desktop Server Engine (MSDE) database.
- ▶ **FM2000 Fund Manager.** For medium sized clients, operating from a single site, such as Councils, Colleges or Business Links wishing to provide secure access to project monitoring information across an intranet. This is an installed product that uses Microsoft SQL Server.
- ▶ **FM2000 Fund Manager Enterprise.** For larger, multi-site clients, for example Regeneration Partnerships or Universities. An enterprise-scale product, with multiple-level access roles. Scalability is limited only by host network / server / database architectures. This is an installed product that uses an OLE DB compliant database, e.g. Oracle or Microsoft SOL Server.
